

# MINI B SPARKY AQUA

## IGNITE THE HYPNOTIC SPARK!

- **Light Source:**  
330 x 1W RGBW SMD LEDs
- **Output:**  
14,000 lm
- **Beam Aperture:**  
120°
- **Shield Family:**  
Moving head fixture suitable for outdoors (IP66)
- **CloudIO Ready:**  
Fully compatible with CloudIO

Let's introduce **Mini-B Sparky Aqua**, a game-changer in the world of compact and lightweight mini moving-heads. This **IP66-rated** fixture is making waves with its rugged design and powerful performance, ideal for both indoor and outdoor environments where durability and effects are essential.

Built to withstand the elements, Mini-B Sparky Aqua doesn't compromise on brightness or reliability. Its **high-output RGBW SMD LEDs**, arranged in **10 individually controllable concentric circles**, not only deliver intense colors, but also ensure even light distribution across a **wide 120° flood and extreme strobe effects**. Whether illuminating a stage during a concert, enhancing architectural or theatrical features, or creating dynamic light shows for TV broadcasts, this fixture excels in versatility and impact.

**Mini-B Sparky Aqua offers fast pan and tilt movements**, for swift and precise positioning of light beams. This agility makes it perfect for live performances, events, and installations that require dynamic lighting effects

that can be adjusted on the fly. From soft color fades to kaleidoscopic sweeps of light, its capabilities meet a wide range of creative needs.

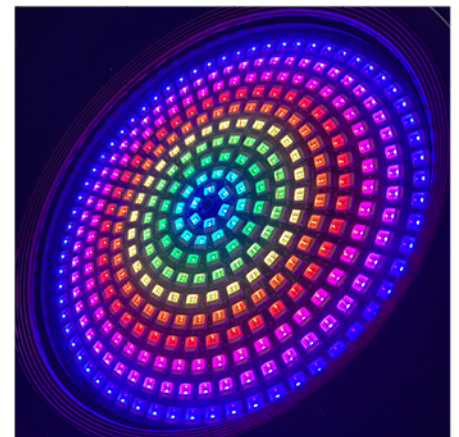

Beyond its technical prowess, Mini-B Sparky Aqua boasts a **sleek and compact profile** that blends seamlessly into any environment. Whether mounted on trusses, rigged overhead, or strategically placed around a venue, its unobtrusive design complements modern aesthetics without compromising on performance.

Designed with ease of use in mind, Mini-B Sparky Aqua offers **intuitive control options** that easily adapt to different operational setups. What really makes Mini-B Sparky Aqua stand out is its ability to **inspire creativity**. Lighting designers can push boundaries with customizable effects and intricate lighting sequences, all available at the touch of a button. Don't forget our **Advanced Layers Management** system that will give life to any artistic vision! With this innovative solution, you can **seamlessly merge three different layers of effects**

in a blink: choose a **background color**, add a **built-in macro**, and combine some **external video content**. It's a truly mesmerizing fusion!

Don't miss your chance to raise your lighting game with Mini-B Sparky Aqua. Whether you're planning a large-scale event, a theatrical production, or a themed installation, this fixture promises to deliver unparalleled performance and reliability.

**Prepare to be hypnotized!**

## MAIN FEATURES

---

- Light source: 330 x 1W RGBW SMD LEDs arranged in 10 individually controllable concentric circles
- Lumen output: up to 14,000lm
- Aperture: 120° beam angle
- Weather Resistant (IP66), ideal for indoor and outdoor applications
- Pixel Mapping
- Very precise and high-speed pan and tilt movements
- Electronic strobe from 1 to 30 f/sec
- 16-bit electronic dimmer
- Ethernet access
- Control protocols: DMX, Art-Net, RDM, sACN and WebServer
- CloudIO Ready: fully compatible with CloudIO
- Weight: 12.1 kg (26,6 lbs)
- Dimensions: 373 x 246 x 195 mm (14.6 x 9.6 x 7.6 in)
